4Point Enterprise Support Program

4Point's enterprise support program mirrors Adobe's standards for enterprise Platinum Support. That means that you get the Adobe authorised program from the largest Adobe support organisation based in North America.

4Point has an annual Adobe enterprise support package that offers unlimited contact via phone or e-mail for up to four authorised contacts within your organization twenty-four hours a day, seven days a week, three hundred and sixty-five days a year.

Who Can Contact Support?

Our enterprise support program allows your organisation to designate four contacts within your company. On your initial call to 4Point Support, simply provide us with the names, phone numbers, fax numbers, and e-mail addresses of your authorised contacts. After that, any one of the four designated contact points is free to contact us at any time. And if you need to make a change, remove a contact and add another, contact us directly and we'll make the change.

Your Case Number

Our case tracking system ensures that we accurately respond to your technical issues. Upon initiating a support case, the system automatically generates a unique case number and forwards it to your attention via e-mail.
